## DELAY IN SELECTING BISHOP.

Supplied Before Lecember. WASHINGTON Nov. 2.-It is believed here that the papal brief appointing a bishop for the new Iluinique (lowa) diocese will not be received before the last part of November at the earliest, and probably not until toward Christmas time. The last mail from Rome failed to bring any developments in the matter, which has been pentling action ever since last winter, and as October is a period of vacation in vatican circles, it will be well; toward the close of the month before any official advices on the subdect reach this country, and in the procedure of the pontifical administration may be considerably later. The names of the candidates submitted by Cardinal Martinelli have been before Pope Lee for a long time. The utmost secrecy is observed afways in such matters: but it is believed that Dr. Catrigan of the faculty of the Cathplic university here is one of them.

A high Turkish official this morning informed a representative of the Associated Press that the refusal of the claims would be founded on these contentions: That Miss Stone. although warned of the dangers of the road, persisted in traveling; second that she did not notify the authorities of her intention, in order to obtain an escort, which precaution even the foreign consults always take when traveling in such outlying insecure districts of the empire: and third, that the brigands who kidnaped Miss Stone and her companion were Bulgarians, that the coup was planned in Bulsaria and that sanctuary was found in Bulgarian territory.
